## **Resources for the California Alternate Assessment**

All eligible students shall have any instructional supports and/or accommodations, including the language of instruction, used in their daily instruction in accordance with each student's IEP.

The administration of the California Alternate Assessments (CAAs) to eligible students shall be one-on-one (test examiner to student), according to the California Assessment of Student Performance and Progress (CAASPP) manual. Depending on the student's disability or needs, the CAAs may or may not include the student's independent use of the testing interface. Because the CAAs are given to students one-on-one by a test examiner, some embedded resources are not provided. For example, while a braille version of the test is not provided, the test may be presented using an embosser or a refreshable display.

<sup>1</sup> Basic calculator for grade five, scientific calculator for grade eight and high school.

<sup>2</sup> Resource not available for the CAAs.

California Department of Education September 2018

Refer to the Matrix One and the CAASPP Accessibility Resources web page at <u>https://www.cde.ca.gov/ta/tg/ai/caasppmatrix1.asp</u> for additional information.
